

URBAN TRAVEL MACHINE

Open Call for Poets

The partners of UTM launch an open call to select 15 poets living in Europe for an intensive collaboration.

Slam and/or Performance Poets currently living in Europe and/or have the nationality of one of the countries participating in the Creative Europe Programme, can apply for a spot in our programme, by creating new work in collaboration with each time 15 art students to display to a wide audience in this unique context during one of the three residency periods.

URBAN TRAVEL MACHINES

Live performance, oral & visual storytelling, typography and immersive technology combined are the focal points within the UTM project. It is dedicated to contemporary, experimental and innovative work and guarantees an exciting immersive audience experience filled with new insights.

Each group of 5 selected poets/performers will create new work for the project in collaboration with 15 art students of one of the three participating universities. The art students will translate these texts and recordings into unique dome projections that will be projected during the live performances at the planetaria during the 3 poetry festivals and at the closing event. In this way image, sound and language form an all-encompassing experience.

The travel and subsistence is paid for by the project during the residency and performance periods.

The working language will be English, but this does only imply that you need to work together with others within this project in English. Your poetic language can be any of the European official languages: Bulgarian, Croatian, Czech, Danish, Dutch, English, Estonian, Finnish, French, German, Greek, Hungarian, Irish, Italian, Latvian, Lithuanian, Maltese, Polish, Portuguese, Romanian, Slovak, Slovenian, Spanish and Swedish.
